Sim/Tech Filter Introduces the

Pleated Wastewater Filter

Pleated filtration has been commonly used in vacuum cleaners, oil filters and many other applications for decades. Now Sim/Tech Filter has adapted that proven technology to the wastewater industry. This particular product is designed for longevity in residential systems as well as the demands of commercial systems and other high volume and/or high solids applications.

Main Features

- ◆ **Over 900 square inches of open area**
- ◆ **Over double the filtration of other popular large filters**
- ◆ **3/32" filtration**
- ◆ **External filtration reduces internal debris accumulation**
- ◆ **Will accept any 4" filter designed for standard 4" baffles if finer progressive filtration is desired.**
- ◆ **Flow channels in the material increase longevity**
- ◆ **Unique quick disconnect for easy removal and cleaning.**
- ◆ **Made in the USA**

We offer free CAD detail drawings in DXF format to cover our complete product line.
